Hello there!

Welcome to the Essential Mandala Aroma Psychology & Coaching online course. My name is Anna and I will be your guide on this mind-opening journey into the world of essential oils.

After 10 years of teaching Kundalini yoga I was bored by routine, and asked God to show me a new way to expand and spread my knowledge. Participation in an aroma game blew up my mind. That seemed to me as an amazing way to help people with self-awareness and self-growth even if they are not into yoga practice.

In this course I have integrated all my knowledge and experience in yoga, psychology, coaching and aroma psychology, and structured it in such a way that allows you to work with all these tools after the first month. Study and work at the same time. It has never been so easy to get a new profession and start your own business in just a month!

With your help we can support many more people who are searching for themselves and their mission in their lives.
